

The Clock Shop

Wants to Buy Your

GOLD

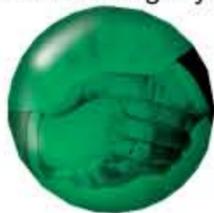

IF YOU HAVE GOLD OR SILVER YOU WISH TO SELL, HERE ARE 3 IMPORTANT POINTS TO CONSIDER...

1. TRUST!

The Clock Shop has been a part of Rapid City's business landscape for nearly 25 years. Our reputation has always revolved around honesty, integrity, and good-old-fashioned service to our customers. Chances are you have entered our store at least once or twice for a \$2 watch battery, a clock or watch repair, or just to shop. It has always been important to us to not only get to know our customers, but also to let our customers get to know us. Trust is a two-way street. We don't take that fact lightly.

Don't be fooled by "flashy" ads from people you don't know and trust!

2. KEEPING THINGS LOCAL

When you sell your gold to out-of-state buyers, it supports only those who quickly whisk it out of town. Selling your gold to The Clock Shop supports not only our employees. All gold sold to The Clock Shop is refined right here in Rapid City and, in many cases, is re-sold from there to other local companies who employ scores of people in our community. In times like these, isn't it important to invest in our local economy? We think so. And we'll be here next week. Will they?

3. WHO PAYS THE MOST?

Who could blame the gold-selling customer for shopping around for the best price? Evaluating gold for purchase is sometimes simple, but it can also be complex, considering all the different forms in which it may be presented. We evaluate your gold right in front of you. We answer your questions. We always strive to pay the highest price for your gold and silver...and not just by a little. Give us a try. We think you'll agree.
